

# Private Skating Time

Want to skate to your favorite music? Or maybe you just want the skating floor all to yourself? Private parties can be reserved when the Roller Cave is available and not open for a public skating session. Private events typically happen before public sessions and end before 9:00pm. Private rink time can be scheduled for a single person, for a family or a small group of friends. Renting out the rink doesn't have to be for a big event. Large groups are welcome.... but we like the small groups too!

**Pricing is per admission and not per skater. Skate rental is free with each admission if needed.**
